

FlexGuard SPL

Flex your muscles, Flex your might. FlexGuard gets the job done right.

Algi-Flexguard SPL is a highly elastomeric waterproofing membrane with excellent flexibility and tensile recovery and is suitable for bridging 1mm hairline cracks. The coating is highly resistant to UV light and has excellent anti-fungal properties, hence suitable for waterproofing of exterior RCC slabs, walls, asbestos sheets, metal roof sheets, etc.

Conforms to ASTM, DIN, and BIS Standards.
